

55" Triple LG Digital Menu Board

Designed for your digital signage application

Triple 55" LG Drive Thru Enclosure

Made for the QSR industry and supports (3) LG 55" XE4F-M displays. This digital drive thru menu board is rated for temperatures of -22f to 122f and is wind load rated up to 140 mph. This system is unique in that there are no custom designed display cabinets. The LG display is already IP56 rated and does not require additional protection from the environment.

Constructed using 7 GA. high impact steel braces and 1/4" thick walled tubing which will insure longevity and years of use. This DMB solution is first primed with a zinc rich primer and can be painted virtually any color you want. For high traffic areas there is an optional front cover bumper housing available

This solution comes equipped with a 4-outlet quad box and a Zero Surge model OEM6-20W-120 power filter. With this fully designed system surge issues are a thing of the past.
